

Hello Roger!

Start .EXE

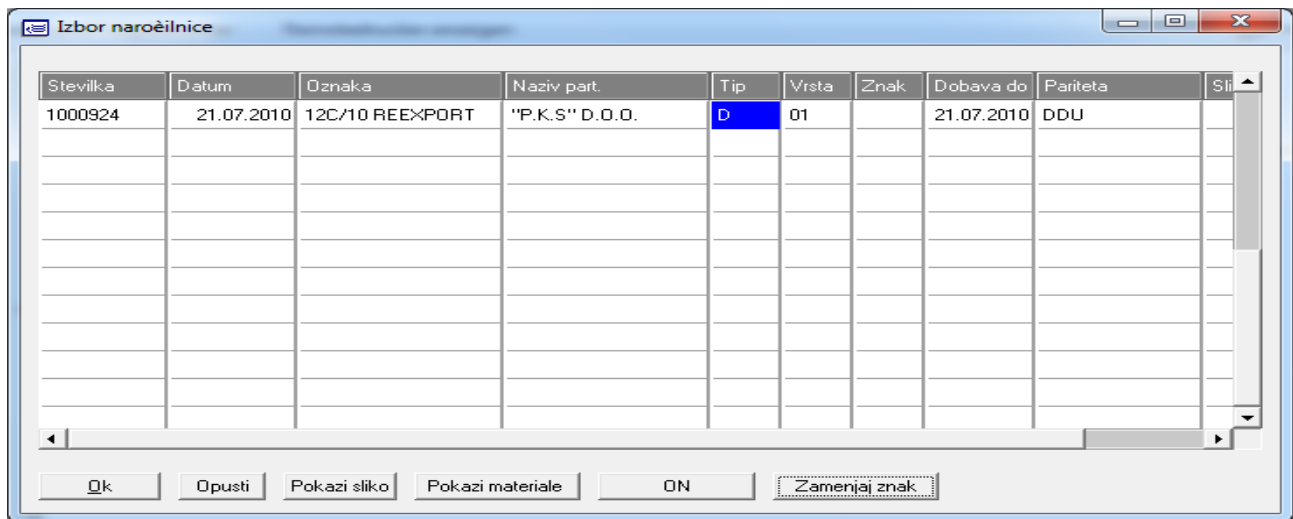

- all Znak must be OFF

[illegible]

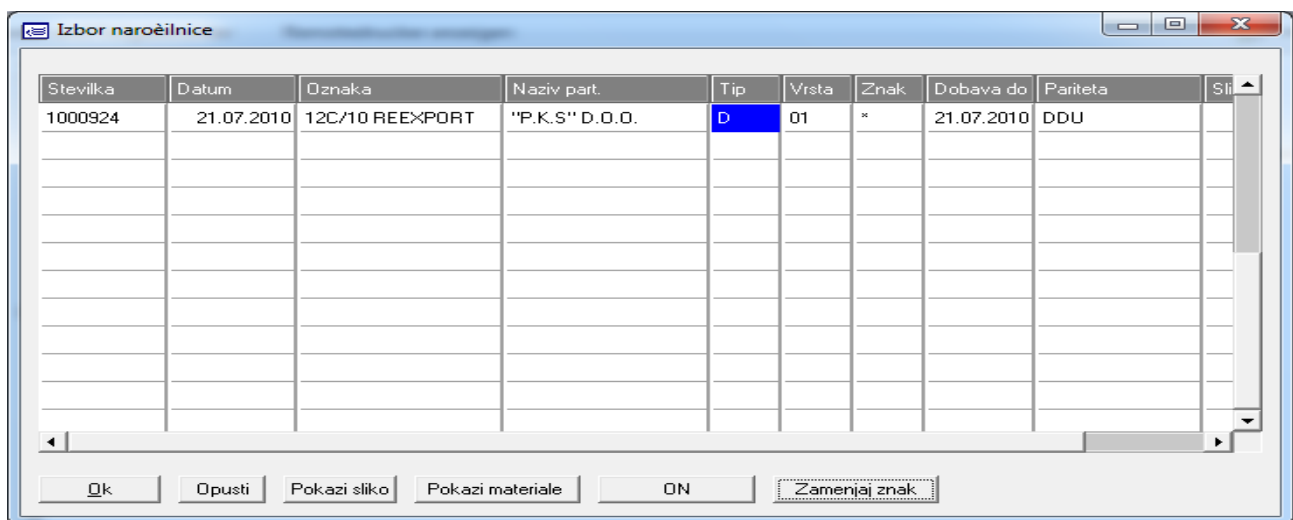

- Mark the first row !!!
- Change OFF Button to ON

[illegible]

- Press once the Button „Zamenjaj znak“

- the Browse refreshed and you only see one record – thats right
- Press the Button „Zamenjaj znak“ again
- the Browse don't refresh !!

now take the slider on the right position and put it on top – you get an error!
